# Interview with students

## Association of Social Rehabilitation

**FATMA ÇIKLA**  
**SINGLE, 55 YEARS OLD**  
**Cook Educator**

I'm graduated from high school. I went so many course about cook. It has been 25 years. I learnt about every kind of cooking from these courses.

I deserved to be respectively apprentice, headworker, master, master trainer.

Some companies paid the price for some courses. Approximately the prices were 10.000 TL. At the beginning i decided to be professional cook educator and improved myself. I finished many things about this job and want to stil go on. I wanted this to earn money and live well and i m glad that i start this.

## Association of Social Rehabilitation

ECEM YAKIN

SINGLE, 28 YEARS OLD

Waitress

I'm graduated from high school. I was waiter 4-5 months ago and quitted from job.

I will go on this course 3 months more and i didn't pay any money for this. The reason that i come is having a certificate and to be cook.

Because after this course, I have plan. I want to own a restaurant or cafe. I advise this course to the other woman.

YADIGAR BAXRAMOVA  
(YODGOZA)  
UZBEKISTAN  
SINGLE, 20 YEARS OLD,  
HOUSEWIFE

I'm graduated from high school and than i came to Turkey.

I wanted to learn how to cook and Turkish meal. My future plan is going on to education. This course provided to meet with new people and learn new culture.

After this, I can think to work about cooking if there is any chance.

## Association of Social Rehabilitation

AY E BIRAKTU  
MARRIED, 34 YEARS OLD  
HOUSEWIFE

I was working when i was single. I'm interested about cook and that's my hobby and i want to have new friends, new environment also socialization.

This course taught me new meals and i have made for my children.

I have plan after this course, my husband will be retired and we want to have a mini restaurant.

## Association of Social Rehabilitation

MERVENUR TEKBA  
SINGLE, 19 YEARS OLD  
HOUSEWIFE

I have never worked before anywhere. I have heard this course and wanted to join.

I didn't know anything about cooking so i think this course improved my ability.

I have met with new people and learnt about kitchen theories. I don't want to work after here for now.

## Association of Social Rehabilitation

F GEN AYAS

MARRIED, 38 YEARS OLD

HOUSEWIFE

I was working 5 years ago in a company about finance. I have quit from this job.

I have started and will attend this course. My aim is learning how to cook and have a job about it.

If there is any chance, i want to work and earn money about it.

## Association of Social Rehabilitation

**M NE KARABULUT**  
**SINGLE, 39 YEARS OLD**  
**HOUSEWIFE**

I'm housewife and i have started this course because of unemployment.

This course was chance for me and i didn't pay any money for this, that was the advantage too.

Cooking was my hobby and i wanted to learn something more about it because I am housewife as you know. But i don't to work after this course.

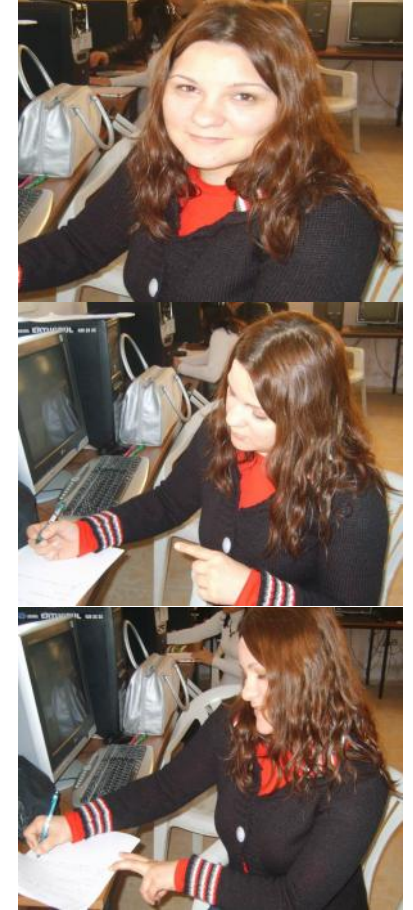

## Association of Social Rehabilitation

AYLA SA LAMYA AR  
DISABLED,  
MARRIED, 28 YEARS OLD  
E – TRADE VOCATIONAL STAFF COURSE STUDENT

I was graduated from Finance Department in Afyon Kocatepe University in 2006. I started to search for work three years later as I married and had children. When I had oral interview and fill CVs I saw that being graduated from a university is not enough to find a job. I had neither any experience nor any certificate. About computer use, I knew only Microsoft Office Programs but it is not enough. So, I feel disqualified and disappointed. On those days, I met E – trade vocational staff course. I searched about this course on Internet. I attend this course because it is an Internet-based program and everything is done via Internet. Also, it is suitable for me to attend as I am a disabled.

After I have attended the course, I saw that this course not only could help me during job searching process but also after this process. Thanks to the computer courses we have studied, I may earn extra money at home just sitting in front of the computer for one-two hours while I have a regular job. It will be extra income for me. It will not be possible for people to do the job they love. But it is not important for me anymore. I hope I will do the job I love in my free time and I will make money. I believe that I will be happy in my private life and live under better conditions.

## Association of Social Rehabilitation

**EL F BESEN**

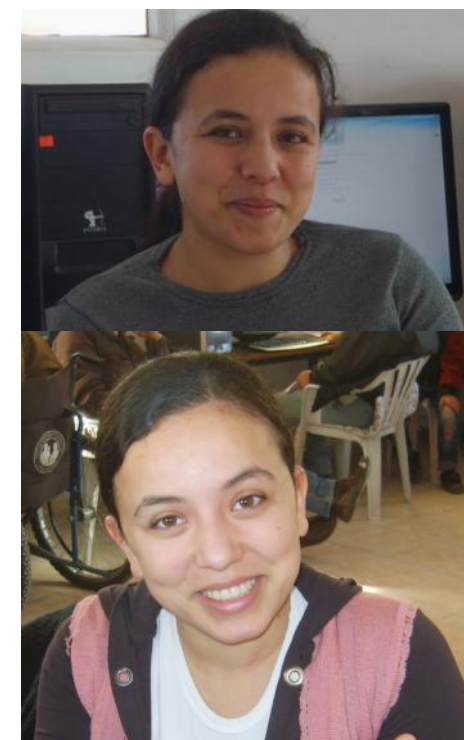

**D SABLED**

**26 YEARS OLD**

**E – TRADE VOCATIONAL STAFF COURSE STUDENT**

I am 2008 graduate of Gazi University Costume Industry Teaching Department. I graduated 2 years ago but I am still unemployed. To be appointed as a governor we are supposed to pass an exam.. Therefore we have to study a lot. I was tired of struggling for these exams .I only wanted to earn my living urgently. That is why I graduated. My primary aim was to become a teacher. As time passes I felt myself that I was of no use. I was fed up hearing people saying unemployed graduate. Although I was about to lose my self confidence I believe that I am able to work with full capacity.

At first the course I attended was not that important, but later I realized that it was getting useful. This period helped me to regain my self - esteem. I felt the happiness of doing something and learning new things. That course helped to discover myself; I started saying nothing is coincidence in life . If we believe there is no obstacle to be successful. I will keep on improving myself . And I will keep on learning. Whatever people say is not so important to me any more . I am ready to integrate working life and earn my living. This is the key to all the doors...

### SEMRA ERÖLÜ D SABLED WEB PAGE DESIGNING COURSE

I graduated from skenderun Barbaros High School, Social Science in 1997, and graduated from open education Faculty department of Public relations in 2007. I am still unemployed.

I noticed that the institutions demand Professional efficiency primarily, when I was looking for a job. Therefore I decided to improve my efficiency. In frame of this I completed English course and I learned English in intermediate level.

I also attended Computer courses, I learned Windows and Office programmers'. Afterwards I completed Internet and "web page designing" courses I prefer this education to make use of different kinds of working fields, and to increase my luck in finding a well paid job, since people in the same position are getting low salaries.

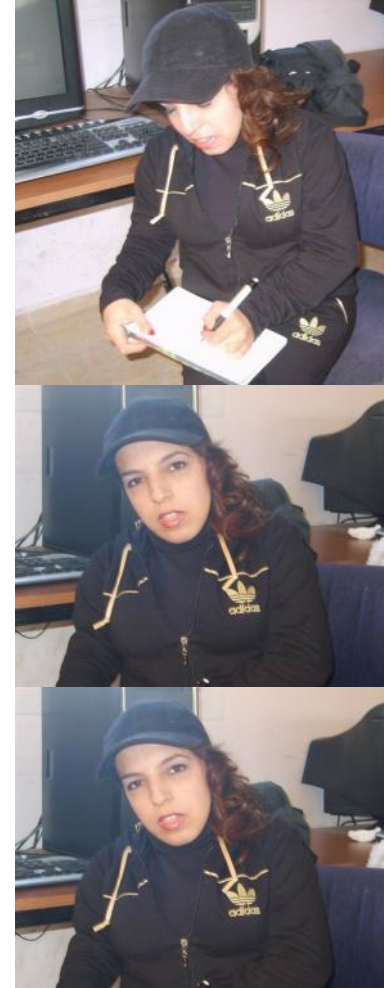

## EBNEM ZÖHRA DISABLED WEB PAGE DESIGNING COURSE

I graduated from "Fatih Trade High School" Accountancy department. I believed that I will earn my living soon after I finished my school, but it didn't happen so. I started to look for a job, I applied Accountancy of fices but I couldn't get any result. After long research I decide to look for secre tary. But again I got no positive response.

I also feel obliged to mention that the reason not to find a sui table job is my being disabled, because most employers respect the physical appe arance. I was about to loose my hopes. After a long period I heard somethi ng about E-Trade Professionals Courses and I attended this course. At least I would feed my capacity and have some to find a job after completing the cou rse.

If I don't have the chance to find a job I believe that I can establish m y own working area

I will not pay any rent for own Office and Administration costs will be low. And I will not pay any bills and extra expenses.

## Association of Social Rehabilitation

**MERVE SEVAK**

**DISABLED.**

**E – TRADE VOCATIONAL STAFF COURSE STUDENT**

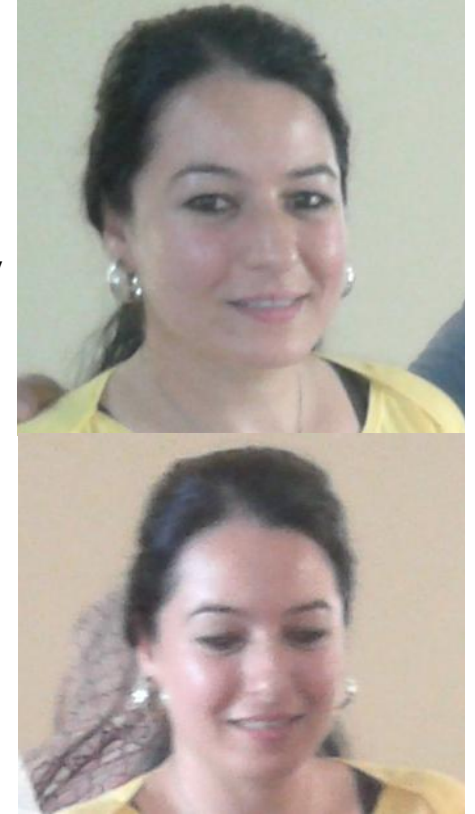

I couldn't complete my education due to economic problems, although I was really eager to go to school. I started to work at different fields such as tailor, carpenter when I was 11. I started at carpet workshop as an apprentice. I learned carpet weaving working. I fell down and my right arm was disabled at 17 years old. As I couldn't use my arm ideally I lost my capacity. I attended English and Computer Courses.

I decided to complete my education as well. I entered university exam. I entered Anadolu University Social Sciences Faculty. I completed my education and got the pedagogical formation and I became a teacher. But as I couldn't get the expected result from efficiency exam I was not attended as a teacher.

I started to work as a Security Responsible in a Hotel in 2001. At the same time I went to Computer courses. I left my job in 2009 due to economical problems.

In September 2009 I attended a course called 'growing organic mushrooms', and I completed in 3 months. I am planning to form my own working area as soon as I have the necessary income.

I also attended e-trade courses to be good at marketing and to be more experienced in trade business.
